First \$50k day 🏆

I hit my first \$50k day which is crazy to say when a year ago I hit \$1k day (which shocked me) and decided I was going to keep pushing with this and not look back

I've only been following the strategies [@saamir](https://www.instagram.com/saamir) teaches & what's in Brandify since that point everyday. I worked to learn and engrave it in my head as much as I could. It works, so if you have doubts just keep asking questions, implementing, and learning and you are basically guaranteed to win if you follow what's in here and keep improving. it's a great feeling 🏆🙏
